

Re: Letter of reference in support of Rob Cornish

August 28, 2013

To whom it may concern

I taught Rob Cornish in the third year mathematics subject Complex Analysis in Semester 1 of 2013. Rob achieved the outstanding mark of 95 and was one of the strongest students out of a 135 cohort taking this course. During consultation hours Rob impressed me with the depth and mathematical maturity of his questions. Rob is very much deserving of a vacation scholarship in your area and I have no doubt he will be a pleasure to work with.

Yours sincerely,
